- Awareness-raising campaign to promote sustainable Internet use habits

Are our internet habits really clean?

*We can change the way we use our devices to **reduce** our digital carbon **footprint**. One of the easiest methods is to **change** the way we send **messages**.*

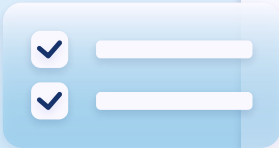

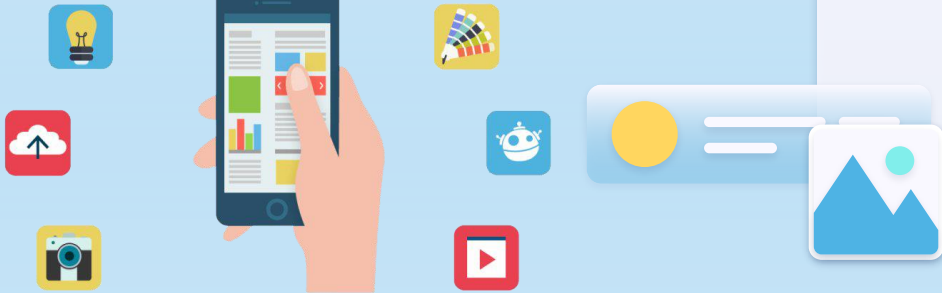

- Raise awareness about the **amount of CO2** we produce
- Might think **not using** paper reduces this amount
- ¿Do you know **how much CO2 you produce** in one day?
